Valencia Elementary School
Bullying Prevention and Intervention Plan

Each year parents or guardians of enrolled students will be provided with information about the anti-bullying curricula. Valencia Elementary will post the Plan and related information on the Valencia website.

What is Bullying?
A person is bullied when he or she is exposed repeatedly and over time, to negative words and/or actions on the part of one or more persons, and he or she has difficulty defending him or herself. It involves an imbalance of power or aggression, and negative action that is often repeated.

What is Teasing?
Teasing is light-hearted, playful joking around between friends and family mutually. It is done with a sense of fun and to create laughter and amusement between the people involved. Bullying, on the other hand, is not done playfully or jokingly, but rather hurtfully and negatively. There can be a fine line between the two. Teasing can become bullying if it hurts a person or is done with the intention to hurt the other.

PROCEDURES FOR REPORTING AND RESPONDING TO BULLYING AND RETALIATION

Reporting Bullying or Retaliation
Reports of bullying or retaliation may be made by staff, students, parents or guardians, or others and may be oral or written. **Oral reports made by or to a staff member shall be recorded in writing.** A school or district staff member is required to report immediately to the principal or designee any instance of bullying or retaliation the staff member becomes aware of or witnesses. Reports made by students, parents or guardians, or other individuals who are not school or district staff members, may be made anonymously to the principal. The school or district will make a variety of reporting resources available to the school community including, but not limited to, a Critical Incident Reporting/Complaint Form available on the school website and in the main office. Additionally, members of the school community may also contact the principal by phone or school email.

Retaliation against a person who reports bullying, provides information during an investigation of bullying, witnesses bullying, or has reliable information about bullying is prohibited. Retaliation is defined as any form of intimidation, reprisal, or harassment directed against a student who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying. Behavior that is interpreted as retaliatory in response to a bullying complaint being filed is in violation of this policy and subject to the same reporting and investigative procedures as the initial complaint. Filing of false reports is also in violation of this policy. Persons found to be filing false reports or accusations of bullying or harassment will be subject to appropriate disciplinary action. Disciplinary actions will be consistent with this Plan and the Valencia Student Safety/Behavior Contract.

Complaint Resolution
All incidents of bullying must be documented and reported directly to the building principal who will have the primary responsibility for resolving complaints.

If at any time during this process a school official is made aware of behavior which may constitute a criminal offense, he/she is obligated by law to report such actions to the legal authorities.

In addition, any behavior which is identified as being so harmful as to suggest a personal threat or assault, will receive immediate disciplinary consequences according to the discipline code, and will result in an immediate suspension, or possible expulsion.

All reports and complaints of bullying, cyber-bullying, and retaliation during or outside of school hours will receive prompt action to end that behavior and restore the target’s sense of safety. This commitment will be supported in all aspects of our school community, including curricula, instructional programs, staff development, extracurricular activities, and parent or guardian involvement.

Members of certain student groups may be more vulnerable to becoming targets of bullying, harassment, or teasing. The school will take specific steps to create a safe, supportive environment for all populations in the school community, and provide all students with the skills, knowledge, and strategies to prevent or respond to bullying, harassment, or teasing. This will take place through class meetings (as part of our Positive Discipline Model) as well as through assemblies and discussions centered on the Valencia Values and Levels of Responsibility. Our school will also participate in the annual 21 Days of Kindness Challenge every February to increase awareness of what a kind, caring community looks and feels like, and to provide students with an opportunity to practice kindness in addition to noticing it in others.

PLEASE NOTE: As the following steps go forward, it is important that the child being bullied and/or the recipient of retaliation, as well as the student(s) exhibiting bullying behavior be given support from
appropriate school staff, including counseling intervention as needed. Research has clearly shown that it is ineffective to bring a student who is being bullied and/or retaliated against together with the student who is doing the bullying for the purpose of mediating the dispute. However, each case is unique and should be addressed with sensitivity to the safety and welfare of the students involved.

I. First Incident:
If a teacher or other staff person recognizes or perceives a report from a student regarding behavior of a relatively minor nature, such as mild teasing, name calling, or excluding a student from group activities, etc. the student or students involved will be warned that such behavior is not allowed. The student should be told that, if this behavior occurs again the student would be sent to the principal for further action. The behavior and warning should be documented.

*In cases where disciplinary action becomes necessary, a due process investigation will precede any such action.*

When bullying is reported to a staff member, it is important to ask whether or not this behavior has happened previously. If there has been a history of chronic bullying, the staff member will skip Step One and consult with the principal.

A teacher or staff member reporting bullying to the office should use the Critical Incident Reporting/Complaint Form, completing the identifying information. They should also issue a verbal warning to the reported offender. When a warning is given, the staff member should document that such a warning has taken place using the Bullying Behavior Verbal Warning Documentation Form. Both documentation forms should be submitted to the principal.

II. Second Incident:
The principal will review school expectations and rules with the student, and a problem solving conference is held. The parents of the student will be called and notified. The student and parents are told that any subsequent referrals for bullying or any retaliation against those who brought the matter to the attention of staff will be followed by disciplinary consequences. If the bullying behavior is judged to be severe, the principal always has the option to dispense a disciplinary consequence, even upon the initial referral to the office.*

III. Third Incident:
The principal will contact the parents to set up a conference. The student will receive a disciplinary consequence, which could range from timeout in the office with the principal, to out of school suspension, depending on the severity of the behavior. At the parent conference, bullying will be addressed, and a remedial plan may be formulated. Appropriate community based interventions or counseling will also be considered. *

IV. Fourth Incident:
Following a comprehensive investigation, the student will be immediately suspended. A parent conference will be arranged to create/review a remedial plan. Additional alternatives, such as referral for expulsion could be considered. *

Reporting and Record Keeping
The principal will keep a written record of any and all children referred to the office for bullying behavior utilizing the Valencia Elementary School Critical Incident Form and Bullying Behavior Verbal Warning Documentation Form. (Attached)
**Principal’s Contact with Parents**
Upon investigation and determination that bullying or retaliation has occurred, the principal shall promptly notify the parents of the target and the aggressor of the determination and the school district or school’s procedures for responding to bullying or retaliation. The principal shall inform the target’s parents of actions that school officials will take to prevent further acts of bullying or retaliation.

**Confidentiality with regard to record/information release**

1. A principal may not disclose information from a student record of a target or aggressor to a parent unless the information is about the parent’s own child.

2. A principal may disclose a determination of bullying or retaliation to a local law enforcement agency without the consent of a student or his/her parent. The principal shall communicate with law enforcement officials in a manner that protects the privacy of targets, student witnesses, and aggressors to the extent practicable under the circumstances.

3. If the reported incident involves students from more than one school district, charter school, non-public school, approved special education day or residential school, or collaborative school, the principal will notify the principal or designee of the other school(s) of the incident so that each school may take appropriate action.

A principal may disclose student record information about a target or aggressor to appropriate parties in addition to law enforcement in connection with a health or safety emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals. The principal must document the disclosures and the reasons that the principal determined that a health or safety emergency exit.
